

# **New Rules Equals New Gut Health Strategies: A *How-to Guide* to Reduce Zinc in Starter Diets**

Hosted By  **Alltech**<sup>®</sup>

Thursday January 7, 2021 at 11:30 AM MST (1:30 PM EST)

Join Aime Roy, Alltech's Canadian Technical Swine Specialist, to discuss strategies to manage the new CFIA zinc oxide (ZnO) regulations for nursery diets in 2021. ZnO is the most common strategy to reduce diarrhea in nursery pigs. However, the swine industry is now facing environmental and antimicrobial resistance challenges forcing them to reevaluate the use of ZnO. Aime will present an overview of diet composition and animal management strategies to help lower ZnO levels without compromising animal performance.
